
LANGUAGES AND TECHNOLOGIES

- Expertise (4+ years): HTML5, CSS3, SASS/SCSS, JavaScript, jQuery.
- Familiar with: AngularJS, NodeJS, Bootstrap, PHP, SQL, C++, Java, JSP, Objective C, Ionic Framework, SEO, Regex, Web Accessibility.
- Technologies used: Brackets, Bower, Eclipse, GIT, Grunt, Gulp, JIRA, MS Visual Studio, NPM, XCode, MS SQL Server, Photoshop, SourceTree, phpMyAdmin, XAMPP, Aptana Studio, Code Igniter, MySQL, StarTeam, Nuance Framework.
- Improving and learning: MEAN stack (AngularJS, NodeJS, ReactJS, NoSQL).

PROFESSIONAL EXPERIENCE

- | | | |
|---|------------------------------|------------------------------------|
| Front-End Developer | The Vitamin Shoppe | September 2015 – April 2016 |
| Provided web accessibility solutions for their desktop/mobile websites, became a vital part of the Sprint and Creative development process as needed. Used: HTML, CSS, JavaScript, JQuery, AJAX, JSP, W3C, NVDA, Sublime, etc.; in order to build, maintain and debug the applications. This was a <u>contract role</u> . | | |
| Interactive Developer | Sharecare | October 2014 – June 2015 |
| Developed fully responsive websites and digital experiences. Collaborated with cross-functional teams (designers and marketing) to implement challenging solutions, as well as provide maintenance to existing web applications. Constantly adhered to the best TDD development methodologies. | | |
| Software Engineer | Nuance Communications | July 2012 – June 2014 |
| Developed, tested, deployed, supported and updated IVR systems for multiple IVR projects; each at different stages of development life cycle. Using Java, JSP, XML, VXML, GRXML, SQL, and solid OOP methodologies, Eclipse and version control. Interacted with developers from all areas of expertise, as well as offshore resources, to tackle weekly scrums and challenges. | | |
| Interactive Developer | The CSI Group | January 2012 – July 2012 |
| As the only developer in the company, I was entirely responsible for transforming all creative assets into digital experiences and websites, as well as assisting with finalized Photoshop designs. Via collaboration with the creative team, I developed an eye for precise detail, as well as strong HTML, CSS, JavaScript, AJAX, JSON, etc. I also maintained website databases using PHP and SQL. | | |

SIDE PROJECTS

- | | | |
|---|--------------------|--------------------------------------|
| Full Stack Web Developer | Scoutlit | December 2013 – December 2014 |
| Used AngularJS, Ionic Framework, NodeJS and SQL to help develop the basketball score-keeping app. | | |
| Full Stack Web Developer | Cleverstep | August 2012 – October 2012 |
| Used jQuery Mobile, JSON, AJAX, PHP and MySQL, to help develop the Jamis Bikes mobile app. | | |
| Lead Mobile Developer | Power Chess | Fall 2009 – Summer 2010 |
| Used XCode, Objective C, iOS Simulator, iOS app build and later on Android SDK to lead development. | | |

EDUCATION

- | | |
|--|----------------------------|
| New Jersey Institute of Technology | Fall 2009 – Present |
| ➤ B.S. in Computer and Information Science, Graduated: Fall 2011. | |
| ➤ M.S. in Computer Science, specializing in Software Engineering, <u>2 courses left</u> . Current GPA: 3.4. | |
